

Direct Powdered Rice Husk Nano - Gasifier Cum Reactive - Chromatographic Reformer  
As A Solid Oxide Fuel Cell Source

The present invention discloses an organic nano-gasifier cum reactive-chromatographic reformer which comprises a nano-gasifier, the nano-gasifier further comprises a cartridge for containing organic material, a nano-sieve and a nano heater. The device also comprises a gas bubble arranged to receive the gaseous component from the nano-gasifier and a chromatic reformer.
