Flip – Flap 2 (Advance)

Aim: Using simple play to enhance memory by replicating the given pattern.

Game Play: The board consist of multi-faceted square units (5x5 matrix) with 4 flaps in each unit. Flaps have colors (red, yellow, blue and green). Player picks a card from the stack on which a pattern of the combination of the above 4 colors is shown . The aim of each player is to replicate the pattern on the board by taking three chances to turn any three flaps.

Children have to strategize to get the right answer with three flips to create the pattern before the opponent completes his pattern.
