Sample Received Date:

Sample Preparation Complete date and time:

Signature of concerned Staff-in-charge/TA:

General Instructions:

1. Partial requirements like Cutting, Polishing will not be allowed.
2. The operators and TAs will not be responsible for any damage caused to the samples, since the basic process involves mechanical gutting/grinding and thinning, which can lead to damage at any stage of sample preparation.
3. Users should be present during the slot if samples are delicate or need any special care
