

Webinar on R&D at IIT Bombay for COVID-19 mitigation

Saturday, August 01, 2020 | 9:30 AM – 1:00 PM

IIT Bombay is continually making various efforts through the expertise of its faculty members to carry out dedicated R&D in specific areas to mitigate the effects of COVID-19 pandemic. A number of projects have been initiated through fast track funding by government agencies, Industry collaboration and internal funding. They are being carried out in close collaboration with Industry partners and hospitals. These efforts have led to the emergence of R&D outcomes in the form of various products, prototypes and futuristic technologies.

The webinar will showcase some of the promising technologies initiated/developed during the last few months.

The webinar details will be shared post registration.

Highlights

- 9 faculty speakers & 2 speakers from SINE incubated start-up companies
- Technologies ranging from medical devices, sanitization techniques, personal protection, surveillance, IT solutions, and anti-viral drug/molecule synthesis
- Partnering opportunities

Target Audience

- IIT Bombay faculty & PhD students
- Functionaries of other IITs
- Industry personnel
- Entrepreneurs
- Officials from Government funding agencies

Webinar Speakers

Prof. Ramesh Kumar Singh
Mechanical Engineering

Prof. Soham Mujumdar
Mechanical Engineering

Dr. R. R. Sonde
Executive VP - Research
Technology & Innovation, Thermax

Prof. Rinti Banerjee
Biosciences and Bioengineering

Prof. Ganesh Ramakrishnan
Computer Science & Engineering

Prof. Manjesh K. Hanawal
Industrial Engineering and
Operations Research

Prof. Kiran Kondabagil
Biosciences and Bioengineering

Prof. Sanjeeva Srivastava
Biosciences and Bioengineering

Prof. Manoj Gopalkrishnan
Electrical Engineering

Prof. Ambarish Kunwar
Biosciences and Bioengineering

Prof. B. Ravi
Mechanical Engineering

Dr. Anirvan Chatterjee
HaystackAnalytics,
SINE incubatee

Mr. Bharadwaj K. S. S.
Endimension Technology,
SINE incubatee
